WHAT HAVE WE RECENTLY ARCHIVED?

These were very busy months for the project consortium. We have finished the most challenging stages of RESET Project. All the partners had a chance to test the project outputs on the proper members of target groups. Based on the company evaluation results and questionnaires filled by partners, the final revisions and modifications were made – the results are now accessible online in pdf format, in each of the partner languages.

All the project outputs are available on our website. What can you find there?

THE 5th TRANSNATIONAL PROJECT MEETING AND THE FINAL CONFERENCE IN PARIS

We are finally approached the final stages of RESET project! The last meeting was filled with the overview of all the project achievements, discussion of the remaining activities and last improvements.

The consortium members presented their experiences after the project implementation phase. Almost all partners have already performed the testing activities and were willing to share their thoughts and the feedback obtained from the participants.

The project final conference took place on the 8th of October in Paris.

The conference aimed to promote the project, to present the project objectives and outputs addressed to audience drawn from adult and community education, human resource management, trade unions and seniors support agencies.

THE HOSTING PARTNER

E-Seniors is a non-profit non-governmental organization, founded in 2005 by Monique EPSTEIN, the general manager of the association. E-Seniors aims at fighting e-exclusion by providing access to and training in ICT to seniors and/or disabled people. Its main objectives are: to bridge the digital gap between generations; to care for elders by fighting seniors' isolation; to open new horizons for efficient use of free time.
