

The 4th Project Meeting in Calarasi

Since we are gradually approaching the final stages of RESET project, our fourth meeting was filled with hard work to clarify all the remaining project's tasks and plan upcoming dissemination, piloting and training activities.

The meeting took place on 15th – 16th of May in Calarasi, Romania and was hosted by Romanian partner of the project - AESD.

The Meeting Schedule

The meeting begun with a short review of the project's outputs and latest activities. Partners discussed among others the final versions of IO1 – Social Researcher Curriculum, IO2 – Digital Competence Toolkit and IO3 – In-service Training & Handbook. A great deal of attention was paid to discuss piloting of completed outputs in all countries of the partnership.

Then, partners discussed and scheduled remaining tasks to finalise IO4 – Business Development & Planning Framework. Partners presented developed modules and agreed on the testing phase of the output. Partners presented also the RESET E-learning Platform, discussed its functionality and material to upload.

Our Road So Far...

It's been now over a year, that RESET consortium has been working on development of the intellectual outputs of the project. Through our hard work we managed to produce a whole range of various valuable and innovative resources that are dedicated to serve senior workers in their attempts to maintain active on the workplace.

We address our resources also to adult education professionals in order to support the delivery of research skills and digital competences profoundly needed by seniors in today's work environment.

We Are Heading to The Final

As the duration of RESET was scheduled for two years, we are gradually heading to the final stages of the project. That doesn't mean, however, that the intensity of our work will now decrease. Contrarily! Now, we are going to focus primarily on piloting produced resources and making sure that they reach as many interested parties as possible in order to guarantee virtual impact of RESET. For this reason, **in coming months we planned various dissemination and multiplier events that will help us to promote RESET in partnering countries of the project.**

The 5th Transnational Project Meeting and The Final Conference in Paris

The Final Meeting of the RESET consortium will take place in Paris, France, on 8th of October 2019.

Partners will meet to review and summarise the activities undertaken within the project. The meeting will also be an opportunity to plan further dissemination and exploitation of produced resources, in order to make sure that they will be easily accessible even after our work is finished.

On 8th of October, Paris will host also RESET Final Conference which will be an open event aiming to promote the project, and addressed to audience drawn from adult and community education, human resource management, trade unions and seniors support agencies.

The Business Development & Planning Workshop for Senior Workers in Nicosia

Senior workers from partnering countries interested in the workforce transition model proposed by RESET will have an opportunity to attend a 5-day training activity held in Nicosia, Cyprus, on 15th-19th of July 2019. The training will focus on business development for seniors and examining business opportunities.

Join Us!

If you are interested in being further informed of the project evolution, please contact the partner in your home country or the project coordinator for further information.

What RESET Has to Offer?

- Training support for older people to build key research competences
- Support for seniors to build their digital competence skills
- Outline of potential business models that might be suitable for older workers
- Be-spoke service training for adult educators
- A whole range of interactive learning resources for online & offline use
